

Christmas Swing Card

Lightly score at the 3.7cm (1-1/2") and at 14.8cm (6") vertically. And at 3/5cm (1-1/4) horizontally on each side. These light score lines are to guide you in making the cuts, you will not be folding on these lines. Make the two score lines in the center at 7.4cm (3") and 11.1cm (4-1/2) heavy and firm as these are your card fold lines. See photo graph for folding directions as you will not be folding the entire length of the score lines. Cut along the solid lines.
