## Earthen Elegance Thank You (December)

### Supplies

- Earthen Elegance Bundle
- Moody Mauve card stock
- Basic White card stock
- Papers from Earthen Elegance Designer Series Set
- Small Scrap Velum
- Moody Mauve Stampin Pad
- Stampin Dimensionals
- Multi Purpose Glue
- 22-23 In Color Dots

### Directions

- Cut Moody Mauve card stock to 21cm x 14.85 (8-1/2" x 5-1/2"), score at 10.5cm (4-1/4") and fold in half.
- Cut white card stock to 10cm x 14.3cm (4" x 5-1/4") and glue to inside of card for a liner to write on.
- Using the Moody Mauve paper from the Earthen Elegance Designer Series Set cut a background for the card front: 10cm x 14.3cm (4" x 5-1/4"). Glue to the card front leaving an equal border all the way around.
- Stamp your greeting onto a scrap of Moody Mauve card using the Moody Mauve Ink. Hand cut to the size you choose. In the example and in the card kit the greeting is 2.5cm x 7cm (1" x 2-3/4").

- Using the dies cut the 'pots' from scraps of the Earthen Elegance Designer Series Set.
- For the fan shaped die I used a scrap of the Moody Mauve card stock. To get that wonderful dimension place a sharp edge, like a ruler under the score lines and gently bend each leaf section down over the ruler.
- The 'sticks' were die cut from a scrap of Pebbled Path, but any neutral piece of card stock would work. And finally the 'frond' was cut from a small piece of vellum. If you don't have any vellum hanging around a small scrap of white or vanilla card stock would also work well.
- Adhere all pieces to the card. You can use the photo as a reference or make a design that is pleasing to you. The greeting was raised up on dimensionals. Place your dots and you are done!
