

Christmas Wishes October Card Sketch

This card sketch compliments of the
Stampin'Up! design team

Template No. 3

Supplies

- Pretty Pointsettia Photopolymer Stamp Set
- Pretty Pointsettia Dies
- 2026-28 In Color Gingham Designer Series Papers
- Peaceful Pine Double Sided Card Stock
- Real Red Card Stock
- Golden Glow Card Stock
- Basic White Card Stock
- Peaceful Pine Stampin' Pad
- Linen Thread
- 2026-25 In Color Dots
- Multipurpose Liquid Glue
- Stampin' Dimensionals
- Paper Trimmer
- Impressions Plate
- Cut and Emboss Machine

Directions

- Cut a bottom opening card base 21cm x 14.85 (8-1/2" x 5-1/2") from the Peaceful Pine Double Sided card stock. Score at 10.5cm (4-1/4"). Fold and burnish well.
- Cut a card liner from the basic white card stock, 10cm x 14.35cm (4" x 5-1/4"). This piece can be affixed to the inside of the card at any time.
- Cut a piece of the 2026-28 In Color Gingham Designer Series Paper to 10cm x 14.35cm (4" x 5-1/4"). Affix this piece to the center of the card front leaving an equal border of the green showing all the way around.
- Cut a strip of the Peaceful Pine Double Sided card stock to 11.5cm x 5.5cm (4-1/2" x 2-3/16"). Turn the strip so that the lighter Peaceful Pine color is face up.
- Die cut the the four petal 'pieces' out of the real red card stock. Run the dies & die cuts back through your Cut and Emboss machine with the Impressions Plate to create the dimension on the dies. Glue the petal 'pieces' one on top of the other, starting with the largest on the bottom and graduating to the smallest. Let dry for a few minutes then gently curl the ends of the petals upwards using your bone folder.
- Die cut the two center pieces to the poinsettia flower out of a scrap of Golden Glow card stock. Glue them together with the slightly larger piece on the bottom. Glue this unit to the center of the flower.
- Die cut two of the leaf motifs out of Peaceful Pine card stock and repeat the embossing effect as for the petals. Cut the top three leaves from the both of the motifs, be sure to leave some stem to make it easier to glue the leaves behind the flower motif. Cut a single larger leaf from one of the motifs. Gently curl the ends of the leaves.
- To make the greeting strip, ink up only the 'Christmas wishes' portion of the stamp and stamp onto a scrap of white card stock. I used the Peaceful Pine Stampin' Pad. Trim the greeting into a strip measuring approximately 1.5cm x 6.5cm (1/8" x 2-1/8") slightly slanting the ends of the strip as shown in the finished photo.
- Place a dimensional in the center of the Peaceful Pine strip. Affix the flower to this dimensional. Glue the petals around the flower. Glue the greeting to the bottom of the strip as shown in the photo. Place dimensionals on the back of the strip and place it in the center of the card front.
- Cut a piece of the Linen Thread and tie a bow. Glue it to the card front touching the center of the greeting.
- Finish the card with a trio of 2026-28 In Color Dots. Be sure to glue one of the small ones in the center of your thread bow.
